ABOUT

Graphic designer specializing in branding, production graphics, print, and interactive experiences. Experienced creating production-ready artwork, visual identity systems, and exhibition graphics while combining traditional design with front-end development and emerging AI workflows.

PORTFOLIO: daimyo1.github.io/Portfolio1/

WORK EXPERIENCE

Exhibit Happy by Steelhead (Graphics Coordinator)

May 2026 – Present

Coordinate the production of large-scale trade show graphics from concept through final output. Prepare production-ready artwork, manage revisions across multiple client projects, collaborate with project managers and production teams, and ensure every file meets print specifications while maintaining brand consistency and quality.

MOSS (Prepress Specialist)

November 2025 – May 2026

Prepared and optimized large-format production artwork for print across a wide variety of substrates and applications. Reviewed client files for color accuracy, resolution, bleed, and print specifications while collaborating with production teams to ensure efficient, high-quality output.

AccuPrint, LLC (Graphic Designer / Press Operator)

May 2025 – November 2025

Managed prepress workflows, digital press operations, file preparation, and finishing for commercial print projects. Worked directly with clients to develop print solutions, troubleshoot production issues, and deliver accurate, production-ready files from concept to completion.

EDUCATION

University of California, Berkeley Extension (2024)

Full Stack Development Certificate

Full Sail University (2024 - Present)

Bachelor of Science, Graphic Design
